

Beaver Report 2015-16

We have 10 Beaver Colonies in the District and numbers have remained the same during the year with total of 166. Unfortunately some Colonies are still struggling with a shortage of adult leaders

The colonies all have a varied and active programmes with many activities taking place away from their home meeting place. These include visits to the beach, pantomime, Pet world, fire station, cinema, supermarkets, wildlife parks and many others.

Many Colonies also held their own or attended the County Sleepover.

We also held an Easter Egg Hunt at Brockhill Park on a Saturday afternoon attended by approx. 60 Beavers.

We managed to choose the only damp and cold Saturday in October for our District outing to Wildwood but the Beavers had a great time seeing the animals and running around the woods. I'm not sure the coach drivers were so impressed when they saw all the muddy wellies approaching their vehicles!

My thanks go to the leaders who, not only run their regular weekly meetings, but also find the time to provide bases and activities for the District events.

Maureen Stanley
